

Summer 2025 – Environmental Education Internship For College Students

Our summer internship program offers great experience for college students interested in the following fields of study: education, environmental studies, science, communication, or outdoor recreation. Interns will receive hands-on training and experience with the fundamentals of environmental education best practices, lesson plan creation, and program facilitation. Interns will facilitate programs for summer camp and visiting groups. Interns will earn a weekly stipend of up to \$530 over the course of the 10-week internship. Interns must be available to work at least 8 weeks over the summer, between June 23rd and August 22nd, in addition to staff training prior to camp opening.

AMM Overview

The Annapolis Maritime Museum & Park's mission is to **educate youth and adults about the Annapolis area's rich maritime heritage and the ecology of the Chesapeake Bay through programs, exhibits, and community events**. We accomplish this mission by bringing visitors to our two unique waterfront locations overlooking the Chesapeake Bay. Our campuses, nestled in the heart of Annapolis, serve as a window to Chesapeake Bay ecology and maritime culture. During the summer, AMM runs a popular 9-week summer camp program for over 500 local youth and provides field trip experiences for visiting groups. Our summer programming has students exploring life around the Bay and maritime heritage through the lens of environmental science, social studies, art, and recreation.
